IN EVERY HOME THESE FIRST DAYS
of winter, when summer has loosened its
hold the question of what sort of ICE to use is one of
utmost importance. Hysteric Ice is made of pure
spring water, this water being of a quality surpassed
by no other in the District of Columbia. In order to
secure clearness of the ice the water is distilled and
then filtered. This serves to absolutely 1 rotect those
who use Hysteric Ice from the dangers to health
which attend the use of ice which is impure or whose
origin is uncertain, as no unhealthful germs can
stand both extremes of the heat of distillation and of
freezing coid. The management invite the fullest inspection of every process in every part of its works by
intelligent, fair-minded people, assured that thereafter Hystlenic Ice will be preferred to any other for
every home purpose. Rates are no higher than for
other ice. A call by postal or by telephone (No. 419)

WITTENBERG, Oct. 31.—Upon the arrival of the imperial party at the railway station here they were welcomed by Prince Stolberg-Werringerade, who conducted them to the town hall. The railway station is some distance from the town and the whole route was lined with troops. Back of the soldiers the crowd stood four or five deep for the entire distance.

The emperor were the uniform of an officer
of the Gardo du Corps. He walked the entire Page 8 distance from the station to the town hall, and as he moved through the lines of troops they presented arms while the crowd shouted and Page 6 cheered enthusiastically.

was finished and the emperor had replied in a few words, thanking the town officials for their good wishes, the procession began to form. At the head of the procession which formed in the market place, directly in front of the town hall, were the highest Protestant clergy of the empire, including the president of the evangelical superior council and the general superintendent of the Lutheran Church. These were followed by a large number of clergymen of lower note. Then came a long line of generals of the army in full uniform and other military officers, the ministers of state repremilitary officers, the ministers of state, repre-sentatives of the landtag and many officials from the civil, military and naval departments.
Then came the Protestant princes of Germany,
with their retinues, and the representatives of Protestant foreign sovereigns. The emperor and his suite brought up the end of the procession under the escort of a squadron of cavalry. Included in the procession were the festival committee, various municipal and district officials and many religious societies. The line moved slowly across the Market

HEADQUARTERS OF THE
ADVISORY COMMITTEE OF THE DEMOCRATIC
NATIONAL COMMITTEE
FOR THE DISTRICT OF COLUMBIA,
NO. 1213 F STREET NORTHWEST.

Friends of desmocracy and citizens who desire the
election of the democratic candidates for the
presidency and vice presidency of the republic.—
We have entered on the last month of the campaign. Fermit the undersigned to remind you,
each and all, that while many have generously
responded in suport of the democratic cause, there
are multitudes who undoubtedly desire its triumph and would hall such triumph as a boon to all
classes of the people, but who have as yet rendered no
aid toward its accomplishment. It is believed that a
little reflection will convince all such persons that a
presidential campaign cannot be carried on without
involving a legitimate and heavy burden of expense
and that it is only just that this burden should be
borne, not by a single class, but by all the friends and
well-wishers of our cause.

Contributions will be received by the treasurer, J.
Harrison Johns n, at the roome of the advisory committee, No. 1213 F st. n.w., second floor, or remittances may be made to him by mail, if preferred, addressed to Lock Box 282.

Contributions may also be made to any of the members of the advisory committee, whose names are published in the papers of this date.

Receipts will be promptly furnished and will be followed with acknowledgments of the democratic national committee from New York city.

ABOUT FIGURING ON GLASS.

To figure on plans and specifications, and do it so as to insure prompt, intelligent and satisfactory service, requires more than a superficial knowledge of the glass business. Occasionally some "novice" will submit a low bid, and not being able to until his contract causes considerable trouble and annoyance. We thoroughly understand estimating for class. Ve make our ngures low, and guarantes efficient service.
